Car covers and seats for children

TE-ROX PAȘCANI

SOME INFORMATION

- From the producer from Pascani there goes up to 365 trucks in a year. This means one truck full of products each day, no exception. They produce over 16 thousand covers for car seats for children every day.

And a little of Te-Rox History

Attitude convicts the French to sign the contract. In April 2007, the Pascani Factory started to produce baby car seat covers and seat belts.

Since 2007 when they set up the company by 2010, the company has grown 89 times, says Roxana Cepalis. Approximately 80 thousand commodities are produced today.

SPARE PARTS FOR BABY CARRIAGES BACKPACKS FOR TRANSPORTING CHILDREN AND BELTS AND SEATS FOR CHILDREN.

These are one of many products that TE-ROX PASCANI creates for many years that passed, only for the protection of the children and the comfort of the parents.

FROM BANKRUPT TO BEING IN THE TOP

- From a capital of 10,000 euros the company has got businesses of over 25 million euros and went from grocery stores to 4 auto accessories factories. And from bankruptcy the company has reached the top of the world. There are figures that show leaps and accelerating developments thanks to an entrepreneur who knew how to adapt and see the potential for development when it was time. Romanian company Te-Rox Pascani has become the largest European car seat manufacturer for children.
